Core Capabilities

- Customised logistics to support operations in South West Pacific including remote island chains, coastal villages, and off-grid zones.
- Disaster Response and Humanitarian Relief: Rapid deployment of essential supplies and equipment to disaster-affected areas.
- Aid Delivery and Development Support: Last-step distribution of aid and infrastructure supplies to support regional development.
- Scientific and Research Expeditions: Marine charter services tailored to environmental and academic research missions.
- Biosecurity and Quarantine Support: Deployment of personnel and cargo in support of critical environmental and agricultural protection measures.
- Search and Salvage Missions: Specialised landing craft for search, rescue, retrieval, and recovery operations in complex marine environments.
- Private and Custom Charters: Support for film, expedition, or exploratory missions requiring robust and agile marine transport.

Mela Dawn

is Mela Logistics first SWP vessel:

- 47m roll on/roll off landing craft with cruising speed of 10 kts and draft of only 2.5m
- 230m² of deck space, 146t net tonnage, up to 20 x 20' containers, as well as 247,000 L of bulk fuel
- Completely new electronics suite, twin Cummins 600hp engines, 12t Manitou all-terrain telehandler
- 7.5m Naiad tender, powered by new 150hp twin Yamaha outboards, for 7 pax
- Crew of 6 plus carry 3 pax in fixed cabins plus another 6 pax in internationally-rated modular cabins.
- Other onboard equipment e.g. dive compressor, optics, camera and IR drones and an impressive digital and radio communications suite.

Company Overview

MELA Logistics provides professional, flexible, and cost-effective landing craft charter services across the Southwest Pacific. Specialising in last-step delivery, we support government agencies, NGOs, and private operators in reaching remote island communities. MELA operates under the Australian International Shipping Register, upholding strict maritime and safety standards.
